

Exhibit 11

Matthew S. Sanchez, Ph.D.

Education

- » Ph.D., Geology, University of Idaho, 2012
- » M.S., Geology, University of Idaho, 2007
- » B.S., Geology, University of Idaho, 2005

Employment History

- » RJ Lee Group, Inc., Principal Investigator, 2015-Present
- » RJ Lee Group, Inc., Technical Manager, Technical Consulting Services, 2012-2014
- » RJ Lee Group, Inc., Technical Manager, Optical, TEM and XRD Services, 2011-2012
- » RJ Lee Group, Inc., Technical Manager, Optical and XRD Services, 2009-2011
- » RJ Lee Group, Inc., Scientist, 2007-2009

Summary

- » Quantitative mineralogy of minerals and building materials by light microscopy
- » Determination of asbestos minerals in bulk materials samples
- » Determinative mineralogy of rock quarry samples by light microscopy
- » Characterization of amphibole minerals
- » Quantitation of amphibole and chrysotile group minerals by powder X-ray diffraction
- » Conducts site investigations of mines worldwide
- » Developed microscopy method for identification and quantification of coal ash residues to screen for impacted areas as part of cleanup efforts following containment failure. Methodology has been accepted by the EPA
- » Provides technical oversight of optical microscopy, transmission electron microscopy and x-ray diffraction services
- » Applied analytical techniques include polarized light microscopy (PLM), scanning electron microscopy, powder X-ray diffraction, and electron probe microanalysis.

Memberships

- » Mineralogical Society of America
- » Mineralogical Association of Canada
- » Geological Society of America
- » USP Talc Expert Panel
